

U.S. Department of Homeland Security United States Coast Guard Fifth Coast Guard District LOCAL NOTICE TO MARINERS

Coastal Waters From Shrewsbury River, New Jersey to Little River, South Carolina

WEEKLY SUPPLEMENT

June 22, 2004

NIS watchstander, 24 hours a day at (703) 313-5900

INTERNET ADDRESS

HTTP://www.navcen.uscg.gov

Weekly supplemental editions contain new information only available following the monthly edition. NOTE: Chart corrections and Light List changes appear only once each. A complete listing of current discrepancies and temporary changes appear in each issue. The <u>Local Notice to Mariners</u> is updated each Tuesday on the U.S. Coast Guard Navigation Center website at <u>www.navcen.uscg.gov/lnm/d5</u>. If you have questions about the **LNM**, contact:

COMMANDER, FIFTH COAST GUARD DISTRICT (oan)

431 Crawford Street, Portsmouth, Virginia, 23704-5004 Telephone (Day): (757)-398-6486. 24 Hour FAX: (757) 398-6303

BROADCAST NOTICE TO MARINERS

This section contains corrections to federal and private maintained Aids to Navigation, as well as NOS corrections. Navigation information having been of immediate concern to the Mariner and promulgated by the following **Broadcast Notice to Mariners (BNM's)** have been incorporated in this notice when still significant at the date of this publication.

LANTAREA/ District 5 Local Notice To Mariners

for correspondence: http://d5local@lantd5.uscg.mil

I. SPECIAL NOTICES: This section contains information of special concern to the Mariner.

FIFTH COAST GUARD DISTRICT WATERS - INCREASED THREAT LEVEL

The U.S. Coast Guard is asking for assistance from all mariners to be on the lookout while they are transiting the local waterways. The Department of Homeland Security and Coast Guard are asking you report any suspicious or peculiar activity that you may observe. Please make all reports to the U.S. Coast Guard via VHF-FM CH 16 or by using your cell phone to dial 911, to the National Response Center (NRC) at 1-800-424-8802 or to the DHS Watch and Warning unit at (202) 323-3205.

CHESAPEAKE BAY REGULATED NAVIGATION AREA (RNA) REQUIREMENTS FOR PORT ENTRY/TRANSIT/DEPARTURE.

Mariners have been advised that there has been an amendment to the **Chesapeake Bay Regulated Navigation Area** which requires all vessels 300 gross tons and over, including tug and barge combined, to obtain permission prior to entering, departing, and/or moving within the **Regulated Navigation Area**. To obtain permission, vessels shall contact the **Joint Harbor Operations Center (JHOC)** prior to entry or movement via Channel 12, or 13/16 VHF-FM and relay vessel documentation number, IMO number or VIN for verification. This includes entries from offshore, James River, Chesapeake Bay or Intracoastal Waterway. Alternate JHOC phone numbers are (757) 444-5210/5209. If the JHOC cannot be reached, the Captain of the Port (COPT) Command Duty Officer may be reached at (757) 668-5555.

REQUIRED BALLASTWATER MANAGEMENT REPORTS FOR VESSELS OPERATING OUTSIDE THE EEZ

Mariners are reminded that in accordance with 33 CFR 151.2040, all vessels which carry ballast water, including residual ballast water and sediments, are asked to submit a Ballast Water Management Report after operating outside the EEZ at their first port of call in U.S. waters. These reports may be transmitted electronically to http://invasions.si.edu/ballast.htm, e-mailed to ballast@serc.si.edu, faxed to Commandant, U.S. Coast Guard, c/o the NBIC at 301-261-4319, or mailed to U.S. Coast Guard, c/o Smithsonian Environmental Research Center (SERC), P.O. Box 28, Edgewater, MD 21037-0028.

NJ - DE - PA - DELAWARE RIVER - REEDY ISLAND

The Coast Guard has received a report of a lost anchor and wire in the vicinity of Reedy Island Anchorage #3 in position 39°-30'.6N, 075°-32'.6W. Mariners are advised to use extreme caution while transiting this area. **Chart 12311.**

MD - POTOMAC RIVER/WICOMICO RIVER - BRIDGE INFO

Mariners are advised that the Maryland State Highway Administration will begin painting and cleaning of the MD 254 bridge across Neale Sound, mile 0.6, at Cobb Island, Maryland from **mid-April through June 30, 2004**. Vertical clearance of this bridge will be reduced 3 feet due to scaffolding. Since mariners will not be landlocked, they will be able to gain access to the Potomac River or the Wicomico River by using the channels on either side of Neale Sound. During the painting and cleaning of this bridge, the vertical clearance of the MD 254 bridge at mean high water, minus the 3 feet, will be 15 feet. **Chart 12286.**

MD - CHESAPEAKE BAY - CHOPTANK RIVER AND HERRING BAY - ROCKHOLD CREEK - SHOALING

There has been a report of shoaling in the vicinity of Rockhold Creek Channel Daybeacon 3 (LLNR 19405) to a depth of 1.9 feet MLW. Shoaling is also present channelward of Rockhold Creek Jetty Light 2 (LLNR 19400) to depth of 2.5 feet MLW. Mariners are advised to use extreme caution while transiting this area. **Chart 12266.**

VA/MD - POTOMAC RIVER - WOODROW WILSON BRIDGE - BRIDGE INFO

Mariners are advised that construction of the new Woodrow Wilson Memorial Drawbridge across the Potomac River, mile 103.8, between the City of Alexandria, Virginia and Oxon Hill, Maryland is ongoing until 2010. Excessive speed and wake by boaters may cause serious or fatal incidents to the Bridge project. It is crucial that mariners obey the speed restrictions and eliminate wakes through the work z one due to the sensitive and precise nature of the work and for worker safety. A temporary floating/sliding bridge will be in place in the waterway during drawbridge construction until further notice. There will be intermittent day-time channel restrictions as a result of the floating bridge and mariners are urged to listen to the BNMs for updates of it's position in the waterway. Mariners are also urged to use extreme caution when transiting this area for work barges, exposed piles, and anchor buoys. For

further information and updates to construction operations, contact Mr. Mike Baker, Environmental Construction Manager for the Woodrow Wilson Bridge Project at 301-567-0094 Ext 242 or visit the Project's website online at www.wilsonbridge.com. Charts 12285 & 12289.

VA - ATLANTIC INTRACOASTAL WATERWAY (AICWW) - ALBEMARLE AND CHESAPEAKE CANAL - BRIDGE INFO

Mariners are advised that the Great Bridge Bridge, crossing the AlCWW, Albemarle and Chesapeake Canal, mile 12.0, in Chesapeake, Virginia will have the horizontal clearance of the fender system reduced from 80 feet to 73 feet, until further notice. This change is due to the construction of the new Great Bridge Bridge. Chart 12207.

VA - COASTAL/VIP - QUINBY INLET - SHOALING

Shoaling has been reported in the vicinity of Quinby Channel Daybeacon 2 (LLNR 6737) to a depth of less than 1 foot MLW. Mariners are advised to use extreme caution when transiting this area. Chart 12210.

NC - COASTAL- BOGUE INLET TO NEW RIVER INLET AND NEW RIVER (AICWW) - Firing Exercises

The Commanding General, Marine Corps Base Camp Lejeune, North Carolina has advised that the danger zone (depicted as 334.440) as shown on National Ocean Service Chart 11543, and AlCWW at New River may be hazardous to navigation due to field firing exercises. Firing exercises are scheduled daily. For additional information concerning specific dates and times refer to Monthly. LNM 22/04.

II. DISCREPANCIES: This section lists all discrepancies to Aids to Navigation and those corrected since the last published list. A discrepancy is a change in the status of an aid to navigation that differs from what is published and or charted.

III. TEMPORARY CHANGES – TEMPORARY CHANGES CORRECTED: This section contains a summary of current temporary changes and corrections to Aids to Navigation. Aids may be temporarily relocated, established or altered for dredging, testing or marking an obstruction or wreck. A permanent correction shall be listed in Section IV giving the new position.

TEMPORARY CHANGES CORRECTED

<u>LLNR Aid Name Status Chart Number BNM Ref. LNM Ref.</u>
None.

IV. CHART CORRECTIONS:

This section contains corrections to federal and private maintained Aids to Navigation, as well as NOS corrections. This section contains corrective actions affecting chart(s). Corrections appear numerically by chart number, and pertain to that chart only. The mariner must decide which Chart(s) to correct. The following example explains the individual elements of a typical chart correction.

Chart Number	Chart Edition ↓	Edition Date	Last Local Notice to Mariners	Horizontal Datum Reference	Source of Correction •	Current Local Notice to Mariners
11541	33 rd ed. NC-PORTS CHANGE	11/01/2002 SMOUTH ISLAI	LAST LNM 47/02 ND TO BEAUFORT	NAD 83	CGD05/NOS	49/02
		South River I	ight 1 to Daybeacon 1, SG	in	34-59-23.345N	076-35-25.467W
	↑ Corrective Action		↑ of corrective ction		Position (Degrees,	↑ minutes, seconds and tenths)

The letter (M) immediately following the chart number indicates that the correction should be applied to the Metric side of the chart only. (**TEMP**) Indicates that the chart correction action is temporary in nature. Courses and bearings are given in degrees true, clockwise from 000°. Bearings of light sectors are toward the light from seaward. The nominal range of lights is in nautical miles (NM).

A weekly electronic update service is now available for NOAA's digital, raster nautical charts. All Notice to Mariner corrections from USCG, NIMA and CHS are included. The service is provided via a partnership between NOAA and Maptech, Inc. Further information is available from NOAA at (301)-713-2770, http://chartmaker.ncd.noaa.gov or from Maptech at (978)-933-3000, http://www.maptech.com.

V. ADVANCE NOTICES: This section contains advance notice of approved projects, changes to aids to navigation, bridge regulations or upcoming temporary changes such as dredging, etc. Mariners are advised to use caution while transiting these areas. Comments on this change should be forwarded to the Commander Fifth Coast Guard District (oan), 431 Crawford Street, Portsmouth, VA 23703-5004

VA - VIRGINIA INSIDE PASSAGE - AIDS TO NAVIGATION CHANGE.

The Coast Guard will be discontinuing Ramshorn Channel Light 2 (LLNR 6960) and changing Virginia Inside Passage Daybeacon 215 (LLNR 6355) to. Virginia Inside Passage Light 215 (LLNR 6355) showing a FI G 4s. Lighting equipment will be removed when endangered by ice. **Charts**: 12221 & 12224.

BRIDGE ADVANCE NOTICE

None.

VI. PROPOSED CHANGES: Periodically the Coast Guard evaluates the system of Aids To Navigation and bridge regulations to determine whether the conditions for which the aids were established have changed. All comments should include the following information: 1) Quantity, type, capacity and value of vessels involved, and the extent that these vessels traverse the area under consideration seasonally, by day, and by night. 2) where practicable, the type of navigation devices, such as compasses, radio direction finders, radar, LORAN, DGPS, and search lights, with which such vessels are equipped. 3) The number of passengers and type, quantity, and value of cargo involved. 4) A chart section or sketch showing the action proposed when necessary to clearly describe the recommended improvement. Written comments on this proposal should be forwarded to: COMMANDER, FIFTH COAST GUARD DISTRICT (OAN) 431 Crawford Street, Portsmouth, VA 23704-5004, unless otherwise noted.

BRIDGE PROPOSALS:

NJ - MANASQUAN RIVER - ROUTE 70 BRIDGE - CHANGE TO OPERATING TIMES

The U.S. Coast Guard has issued a temporary deviation to test an alternate drawbridge regulation for the Route 70 Bridge, mile 3.4, across Manasquan River, at Riviera Beach, New Jersey. Under this temporary 90-day deviation, effective **May 1, 2004, through July 29, 2004**, the Route 70 Bridge will open on signal on the hour, except that from 5 p.m. to 7 p.m., Monday through Friday and from 11 p.m. to 7 a.m. the draw need not be opened. The purpose of this temporary deviation is to test an alternate drawbridge operation schedule for 90 days and solicit comments from the public. Comments on this test deviation should be forwarded to the above address attention (obr) no later than August 31, 2004. Copies of **PUBLIC NOTICE 5-1011** which describes the test deviation in detail can be obtained by writing to the above address or by calling (757) 398-6222. **Chart 12324.**

MD/DC - POTOMAC RIVER - ANACOSTIA RIVER - CHANGE TO OPERATING PROCEDURES

The U.S. Coast Guard is proposing to change the regulations governing the operation of the CSX Transportation (CSX) Rail (vertical-lift) Bridge across Anacostia River, at mile 3.4, in Washington DC. CSX, who owns and operates this drawbridge, has requested changes to the operating procedures for the drawbridge. The proposal would eliminate the need for a bridge tender by allowing the bridge to be operated from a remote location. This proposed change would maintain the bridge's current level of operational capabilities and continue providing for the reasonable needs of rail transportation and vessel navigation. Comments on this proposal should be forward to the above address attention (OBR) no later than <u>July 16, 2004</u>. Copies of PUBLIC NOTICE 5-1014 w hich describe the proposal in detail can be obtained by writing to the above address or by calling (757) 398-6222. Chart 12289

MD - CHESAPEAKE BAY - CHESTER RIVER - KENT ISLAND NARROWS — BRIDGE TEST DEVIATION

The U.S. Coast Guard has issued a temporary deviation to test an alternate drawbridge regulation for the U.S. Route 50/301 Bridge, mile 1.0, across Kent Island Narrows at Kent Island, Maryland. Under this temporary 90-day deviation, effective **May 1, 2004, through July 29, 2004**, from 6 a.m. to 9 p.m. the U.S. Route 50/301 Bridge will open on the hour and half hour for the passage of all waiting vessels. The purpose of this temporary deviation is to test an alternate drawbridge operation schedule for 90 days and solicit comments from the public. The existing regulation at Title 33 Code of Federal Regulations Part 117.561 locates the drawbridge on Route 50/301. The drawbridge is now located on Maryland Route 18B. Comments on this test deviation should be forwarded to the above address attention (OBR) no later than August 31, 2004. Copies of **PUBLIC NOTICE 5-1010** which describes the test deviation in detail can be obtained by writing to the above address or by calling (757) 398-6422. **Chart 12272**.

VA - CHINCOTEAGUE INLET - CHINCOTEAGUE CHANNEL - SR 175 BRIDGE - CHANGE TO OPERATING PROCEDURES

Effective **July 16, 2004**, the Coast Guard is changing the regulations that govern the operation of the SR 175 Bridge across Chincoteague Channel, at mile 3.5, at Chincoteague, Virginia. These regulations are necessary to facilitate public safety during the Annual Pony Swim. This final rule will change the drawbridge operation schedule by allowing the Chincoteague Channel Bridge to remain in the closed position to vessels from **7 a.m. to 5 p.m**. on the last consecutive Wednesday and Thursday in July of every year. Copies of **PUBLIC NOTICE 5-1014** which describe the new regulations in detail can be obtained by writing to the above address or by calling (757) 398-6222. **Chart 12210.**

VII. GENERAL This section contains information of general concern to the mariner. Mariners are advised to use caution while transiting these areas. The following is a list of dredging/construction operations being conducted in the Fifth Coast Guard District. Mariners should be aware that the dredge and pontoon lines are held in place by cables, which are attached to anchors some distance from the dredge and pontoons. Buoys are attached to the anchors so that they may be moved as the dredge advances. Mariners are advised that aids to navigation may be temporarily relocated to facilitate dredging. The dredge and related equipment will be lighted and marked in accordance with International or Inland Navigation Rules and the dredge will monitor Channels 13 and 16 VHF-FM unless otherwise noted. Dredge operations are usually conducted 7 days a week, 24 hours a day. Mariners are cautioned to strictly comply with Inland Navigation Rules when approaching, passing and leaving the area of operation, to remain a safe distance from the equipment, and to contact the dredge for specific transiting information. Owners and lessees of fishnets, crabpots and other structures that may be in the vicinity and that may hinder the free navigation of attending vessels and equipment must remove these from the area where tugs, tender boats and other equipment will be navigating prior to the commencement of the dredging operations.

CONSTRUCTION/DREDGING LOCAL NOTICE TO MARINERS NOTIFICATION DEADLINES

Construction and dredging companies should notify <u>Commander</u>, <u>Fifth Coast Guard District (oan)</u>, <u>431 Crawford Street</u>, <u>Portsmouth</u>, <u>VA 23704-5004</u> at <u>least 3 weeks prior to operation</u> begin date for information to be published in the <u>Local Notice to Mariners</u>. It is requested that notification be delivered by letter or fax and followed up by telephone. Fax # (757) 398-6303 and voice Phone # (757) 398-6486 or at the D5LOCAL INTERNET SITE.

INFORMATION CONCERNING BRIDGES ACROSS NAVIGABLE WATERS OF THE FIFTH COAST GUARD DISTRICT

The following is a list of operating information for certain bridges within the Fifth Coast Guard District. Mariners are advised that the bridges may be operating on a temporary schedule, with reduced clearances, undergoing bridge repairs or under new bridge construction. Mariners are advised to proceed with caution, comply with Inland Navigation Rules at all bridges and to contact the bridge on channels 13 and 16 VHF-FM. For more information refer to the referenced **Local Notice To Mariner** or contact the **Commander, Fifth Coast Guard District (oan-b), 431 Crawford Street, Portsmouth, VA, 23704-5004** via written correspondence, by voice phone at (757) 398-6222., or at the LANTAREA Office Aids to Navigation INTERNET SITE.

SUMMARY OF GENERAL ARTICLES IN EFFECT FOR THE WATERS OF THE FIFTH COAST GUARD DISTRICT

WASHINGTON D.C. - 4TH OF JULY - SECURITY ZONE GEORGETOWN CHANNEL POTOMOC RIVER

The annual July 4th Celebration on the National Mall in Washington, D.C. will occur on Sunday, July 4, 2004. A temporary Security Zone becomes effective from 12:01 a.m. to 11:59 p.m. on Sunday, July 4, 2004, upon the waters of the Georgetown Channel of the Potomac River, from the surface to the bottom, between the Long Railroad Bridge (the most eastern bridge of the 5-span, Fourteenth Street Bridge complex) to the Theodore Roosevelt Memorial Bridge and all waters in between, including the waters of the Georgetown Channel Tidal Basin. This security zone is necessary to control vessel traffic for the security and safety of life and property on navigable waters during the event. The effect will be to restrict vessel traffic on the Upper Potomac River. Persons or vessels entering into or passing within the zone must follow the directions of the Captain of the Port, Baltimore, Maryland, or his designated representatives, which include any Coast Guard commissioned, warrant, or petty officer. The operator of any vessel within or in the immediate vicinity of this zone shall (1) stop the vessel immediately upon being directed to do so by the Captain of the Port or his designated representative, and (2) proceed as directed by the Captain of the Port or his designated representative, proceed at the minimum speed necessary to maintain a safe course while within the zone. The U.S. Coast Guard may be assisted in the patrol and enforcement of the zone by Federal, State, and local agencies. Persons desiring to contact the Captain of the Port may do so at telephone number (410) 576-2693 or via VHF Marine Band Radio channel 16 (156.8 MHz). Contact Lieutenant Dulani Woods for any comments or questions, at Commander, Coast Guard Activities Baltimore, telephone number (410) 576-2513.

LNM 25/04

MD & VA - WICOMICO RIVER - POTOMAC RIVER - NEALE SOUND

Mariners are advised that the cleaning and painting work has been extended at the MD 254 Bridge, mile 0.6, across Neale Sound at Cobb Island, Maryland, through **July 31, 2004**. To facilitate scaffolding, the vertical clearance is reduced by approximately three feet. Mariners are not landlocked; they will be able to gain access to the Potomac and Wicomico Rivers by using the channels on either side of Neale Sound. Mariners are advised to use caution when transiting the area. **Chart 12210**

LNM 25/04

VA - CHESAPEAKE BAY ENTRANCE - NOAA DATA BUOY DEPLOYMENT

A NOAA Data Buoy to measure waves has been established in position 36° 57' 33N, 076° 00 46W, approximately 100 feet west of Chesapeake Channel Lighted Bell Buoy 2C (LLNR 7035). The buoy is yellow, 3 feet in diameter, stands 2 feet above the water surface and is unlighted. The buoy will remain on station until about August 05, 2004. Mariners are advised to use caution when transiting the area. **Chart 12221.**

VA - JAMES RIVER - NEWPORT NEWS SHIPYARD - DREDGING

The Dredge 428 will be conducting dredging operations at the Newport News Shipyard and Drydock from 14 June, 2004 through 25 June, 2004. Tugs and scows will transport dredge material to the Craney Island Disposal Area. The dredge can be contacted on VHF-FM Channels 13 and 16. Mariners

are requested to stay clear of the dredge, floating and submerged pipeline, buoys and wires and review comments concerning dredging operations under **General Articles VII**. Mariners are requested to exercise extreme caution and **no wake** when approaching, passing and leaving the dredge location and to strictly comply with Inland Rules of the Road and watch for indications of a submerged or partially submerged pipeline. **Chart 12248.**LNM 24/04
